S

3.2. We will seek to reduce the consumption of resources and improve the efficiency of those resources where practicable, particularly with concentrated products where practicable.

3.3. We will recycle all packaging where possible, including the manufacturer of the cleaning product does not recycle.

3.4. We will aim to improve our environmental performance, particularly with regard to the products we use, ensuring that wherever possible they do not cause harm to the environment.

3.5. We will manage waste from our business operations according to the principles of reduction, reuse and recycling.

3.6. We will ensure that hazardous lubricants are stored for collection, and that mechanical oils are sent to appropriate recycling centres.

4. Energy and Water

4.1. We will seek to reduce the energy used in our workshop.

4.2. Lights and electrical equipment will be switched off when not in use.

4.3. Where possible, heating will be adjusted downwards with energy consumption in mind.

4.4. The energy consumption of new products will be taken into account when purchasing.

M

5. Transport

5.1. Driving is a necessary part of our business wherever possible we will drive the most fuel efficient vehicle.

5.2. Through employee education and training, we will seek to reduce our fuel consumption.

5.3. We will ensure that our vehicles are regularly serviced to maintain their optimum efficiency.

5.4. We will try to encourage our customers to use fuel efficient vehicles for their deliveries.

P

6. Green Culture

6.1. We will involve our staff in the implementation of this Policy in order to achieve greater compliance and performance.

6.2. We will work with our suppliers or sub-contractors to encourage them to improve their environmental performance.

6.3. Where possible, we will encourage our material suppliers in an attempt to reduce our CO2 emissions.

6.4. If any liquids are spilled, we will use the appropriate cleaning/soak up method to ensure that no liquids enter the drainage system or local water table.

6.5. All storage tanks will be checked for leakage to the environment.
