

Environmental Policy Statement

The Environmental Policy of Company ("the Company") is to ensure so far as it is reasonably practicable the Company's activities are carried out with a commitment to protecting and enhancing the environment.

The Management of the Company recognises that all business activities have an environmental impact and in developing this policy statement we are reaffirming our commitment to manage environmental issues in a sustainable manner.

This policy has the full support of the Company's Board of Directors in implementing this commitment to manage our environmental impact positively.

1. Comply with environmental legislation and standards and seek to take a proactive approach to future requirements.
2. Ensure that environmental considerations are integrated into our business decisions. By this we mean to seek to reduce our environmental footprint through the responsible use of energy, water and materials, and to maintain the quality of service expected by our guests.
3. Actively pursue opportunities to improve our environmental performance, concentrating particularly on reducing our greenhouse gas emissions, energy consumption, and the reduction and recycling of waste materials.
4. Ensure that we use risk assessment to identify potential environmental risks for our businesses.
5. Attempt to develop a wide understanding of environmental issues among our suppliers, employees, and visitors.
6. Regularly review our policies to ensure they remain properly aligned to the need to reduce waste and encourage the efficient utilisation of scarce resources.
7. Attempt to work with suppliers to ensure they have suitable policies for managing their environmental impact on the environment.
8. Ensure, through our active engagement, that our efforts are continually reviewed, updated and communicated.

The responsibility for implementing this Environmental Policy Statement rests with the Directors/Partners.
